Working Experience

3 years

SKILLS

- Javascript
- Node
- Typescript
- Redis
- MongoDB
- MySQL, Sql
- Nest

SUMMARY

I am ...

I'm a back end software engineer with 3+ years of experience designing, enhancing and maintaining applications with Node, Express & TypeScript.

My strongest skills and how I learned them ...

My strength lies within the following technologies javascript, typescript, node, & laravel. I have had experience with these tools as a back end and full stack developer in building apps.

What I am looking for ...

- ❖ I'm looking for a backend developer role, or a full stack role with a focus on backend. I'm open to trying new technologies too.
- ❖ Projects that will help automate day to day activities in ecommerce, fintech, agrotech or edutech industries.
- ❖ Working on decentralized application (blockchain).

On fact (outside of work) about me ...

I love playing piano and listening to music.

Work experience

3T Tech Group – 2021 *United Kingdom (remote)*
Backend

3TTech Group is a uk-based agency that outsources projects to devs. I worked as a contractor and helped the team to design database schema for the project and infrastructure setup.

- Worked with QA and Support to create maintain several Wiki pages for internal uses.
